**7:45PM:** Depart from Dulles, Washington, DC (IAD) Icelandair – Flight 644 (economy)

### Day 2: Sunday, March 6<sup>th</sup>, 2016 – Reykjanes Peninsula

**6:30:** Arrive in Keflavik, Iceland on the Reykjanes Peninsula (30 miles south of Reykjavik)

**7:30:** After clearing customs, we will pick-up the vehicles

**8:00:** I think it will be best to have breakfast at the airport

**9:00:** Stop at Bridge between Two Continents near Sandvik. We'll talk about Mid Atlantic Ridge, the boundary between the North American Plate and the Eurasian Plate.

**10:00:** Valahnukur cliff. Check the contact between tuff and pillow lava.

**11:00:** Gunnuhver hot spring and an introduction to geothermal activity.

**12:30:** Lunch in Grindavik – There is a café called Bryggjan (2 240, Miðgarður, Grindavík) near the harborfront that might be good.

There is also a grocery store in Grindvik called Netto, this might be a good opportunity pick up some groceries and such.

**2:00PM:** Blue Lagoon – the basic package is \$45 dollars, that really just gets you entrance into the pools, looks like you can add on towel for \$5. They list other packages up to \$80 that include drinks, mud masks, etc.

It is about 40 minutes to the hostel, we can stay as long as people want but I would suggest we hit the road by 5.

**6 or 7 PM:** Get to the hostel (Igdlo Guesthouse, Gunnarsbraut 46, 105 Reykjavík). Stay there for one night. Fend for yourself for dinner? Or we could cook a group meal, the hostel has a kitchen that we can use.

### Day 3: Monday, March 7<sup>th</sup>, 2016 – Reykjavik to Heimaey

The morning is free and the hostel will provide breakfast.

**10:15:** Leave the hostel and head toward Þorlákshöfn for the ferry

## Day 4: Tuesday, March 8<sup>th</sup>, 2016 – Heimaey to the Rift Valley

**8:00:** Make breakfast in the hostel

**9:00:** Drive to the south edge of the island, hike around and get a view of Surtsey

There is enough hiking to make that our full day, there is a lot to see here. Terry has a good loop hike that would bring us past a lot the cool stuff.

There pictures of Elephant Rock on the internet from this island, it looks really cool, hopefully we can figure out where it is, I'd like to see that...

If weather becomes an issue there are indoor activities available as well.

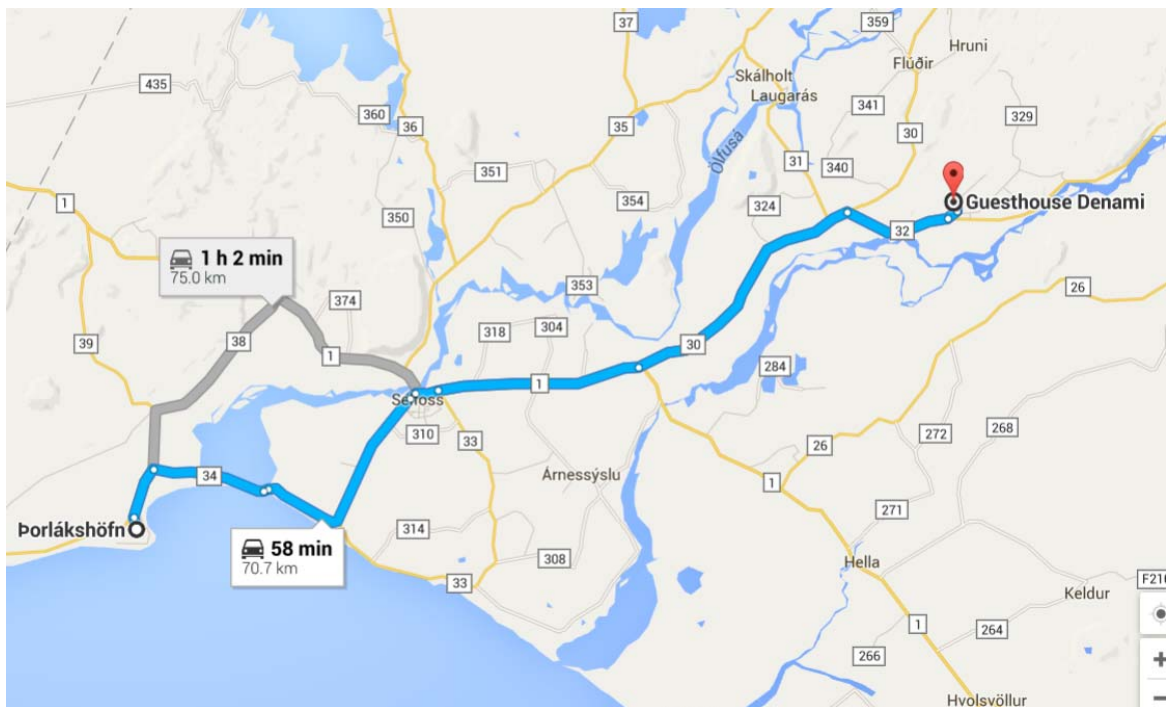

**Indoor Activities:** Eldheimar Volcano Museum (10, Gerðisbraut, Vestmannaeyjabær, opens at 11AM, \$14) – seems like this give a descent history of the island and the volcanic issue. This also has overview of the buried portions of the town.

The natural history museum and aquarium gets good reviews (Saeheimar Aquarium, Heioarvegur 12 900, Vestmannaeyjar, close to the ferry terminal, opens at 1PM, \$8). Other than that people could just hike around or wait for the ferry in a café or something.
